

Environmental Policy

LaunchTS Pty Ltd is committed to carrying out all business activities in an environmentally friendly and sustainable manner that promotes awareness, recycling and reduction in carbon footprint.

In support of this committed, LaunchTS Pty Ltd implemented sustainable environmental practices into all areas of the business and form part of all planning, preparation and execution activities.

All LaunchTS Pty Ltd managers, supervisors & employees will be involved and comply with the following:

Managers

- Understanding the environmental aspects and impacts of all activities
- Ensuring that all workers are aware of environmental impact around the work they perform
- Ensuring workers are empowered with the necessary training and resources to prevent and reduce these impacts
- Meeting legislative requirements proactively and look to industry best practice to enable continuous improvement
- Setting measurable environmental objectives and targets and report on their performance
- Engaging with suppliers and customers to reduce the lifecycle impacts of our operations and the products we use

Employees

Each worker is required to integrate environmental practices into everyday operations by:

- Complying with sustainable work practices with the intent to prevent and reduce harm to the immediate environment including land, water, air, flora and fauna and cultural heritage
- Reporting all environmental incidents and hazards on the job immediately
- Ceasing work immediately where their own or others safety and wellbeing is at risk

Contractors and Sub-Contractors engaged to operate on behalf of LaunchTS have been informed of the requirements contained in this policy.
